

JVA SMS Gateway

PTE0319

Overview:

The SMS Gateway allows easy remote control and monitoring of Z-Series Energisers and Monitors, through a mobile phone via SMS. It also includes extra inputs and outputs to interface with other security equipment or ancillary equipment such as an electric gate motor. The JVA SMS Gateway will automatically alert up to 10 mobile phone numbers when an alarm occurs or input changes.

Features:

- Compatible with all JVA Z series energisers and monitors
- Monitors and controls up to 15 devices (linked via Keypad bus), as well as two inputs and two output relays
- Produces an up-to-date status report including arm state, alarms and primary voltages of each device, and input and output states
- All commands secured by user configurable PIN
- Easily configurable by SMS
- Can be used in conjunction with Perimeter Patrol

Specifications:

Network	Available:	2G or 3G
